for each book

New additional titles

Proven
Effective

Students learn
at their own pace

WHY THIS CURRICULUM IS IMPORTANT

This Life Skills Curriculum is written for students aged 14 and above. It addresses their needs in an interesting and informative way, therefore they like to use this program. It contains information students want and need to know. The books are written on various comprehension levels so students will learn at their own pace. By being comprehensive in scope and economical in cost, this curriculum is outstanding.

MEASURED RESULTS - PROVIDE ACCOUNTABILITY

Pre/post-tests are included to measure success and provide accountability.

RESOURCE CENTER

In addition to being used as a life skills curriculum, the books can be used as a resource center for students to use in their free time.

INDEPENDENT USAGE

The materials can be used by students independently or in group situations. They can also be used with mentors or peer tutors.

VIDEO INCLUDED/TRAINING

A video is included to help you in teaching this curriculum. Free audio-conference/training is available along with a training workshop.

COST-EFFECTIVENESS – UNLIMITED DUPLICATION

UNLIMITED DUPLICATION is allowed AT THE PURCHASING SITE BUT NO OTHER SITE, after purchase. The students can keep copies of any book or portion of a book that is important to their future success. School District and State Licenses are available. Please call 1-800-255-9085 for more information.

LIFE SKILLS CURRICULUM[®]

SOCIAL SKILLS TITLES (LS1).....\$395.00

JOB READINESS & TRAINING CURRICULUM

Ideal for WIA Programs

A Sequential Competency Program
Duplicatable Books & Audio CDs
THREE COMPETENCY LEVELS

Ideal for WtW Programs

This curriculum has been written to help ALL of your students learn the competencies and goals needed for work maturity and pre-employment. These competencies include:

Pre-Employment Skills

- Career Decision Making
- Job Applications
- Business Letter
- Labor Market Information
- Interviewing
- Resumes

Work Maturity Skills

- Punctuality/ Attendance
- Positive Attitude/Behavior
- Appearance
- Interpersonal Relationships
- Completing Tasks

All of your students want to learn, but they have different abilities. This curriculum addresses this problem by having **three** levels of competency materials. Your students will learn on their own level.

Each of the **three** levels contains materials and information to meet competencies and goals for work maturity and pre-employment; however, the materials for each of the three levels differ in reading level, complexity, and format.

The format and difficulty of the materials advances with each level to accommodate the abilities of the students. **Audio CDs** are included in Level I and Level II to help students understand the information in each book as they develop their reading skills.

Since education is a life-long process, all the materials are duplicatable after purchase.

This program is ideal for use in Workforce Investment Act (WIA) Programs, Welfare to Work (WtW) Programs, One-Stop Programs, Youth Training Programs, School to Work Programs, YOCs, IEPs, and other employment/self-sufficiency programs.

Accountability is provided by use of pre/post-tests and skills sheets.

*** HOW THE CURRICULUM WORKS ***
This is a spiraling curriculum

Level tests and prescriptions are provided to determine the strengths and weaknesses of your students' knowledge and skills. The tests give you information as to what level to begin instruction along with a **prescription** to remediate your students' weaknesses and to reinforce your students' strengths.

An **answer key**, along with a **scoring grid**, is provided so that you can easily develop an individual program for each student. This saves time along with increasing your students' chances for success.

Each book contains **pre/post-test** materials so your students can work individually. The **pre/post-tests** can be used as guides for your students to monitor their progress through the curriculum. Using this curriculum your students can progress at their own speed and achieve success as they master each skill.

A **teacher's guide** is provided which explains how to use the **level tests** and the **scoring grid** to develop **prescriptions for remediation**. **Lesson plans** are provided for each book along with suggestions for different ways that the materials in the curriculum can be used. Materials come in a self-contained carrying case. **Certificates of Achievement** are also included.

ALIGNED TO TABE AND CASAS - INDIVIDUAL PRESCRIPTIONS

This program will help you develop an individual prescription for each student based on TABE or CASAS scores. This prescription can be included into individual instructional plans, used for daily lesson plans, used for student management, and used for IEPs.

MANAGEMENT SYSTEM INCLUDED IN THE CURRICULUM - PROVIDES ACCOUNTABILITY

The CD-ROM includes classroom management and student management features. The program is easy to operate and it allows you to either prescribe lessons for your students or have your students work the lessons independently. Provides you with the accountability you need.

- INCLUDES **658** LESSONS ON A **CD-ROM** WITH A MANAGEMENT SYSTEM, A PRESCRIPTION THAT IS ALIGNED WITH TABE, CASAS & STATE STANDARDS.

**NEWLY
REVISED**

ACCOUNTABILITY

2-9

Duplicatable And Networkable at Your School

Many students who return to the classroom to pursue their G.E.D. find the successful completion of that goal more difficult than they had imagined. However, they need to learn the curriculum included in the Pre-G.E.D. program to improve their workplace, transition, and community skills, as well as the general quality of their lives. This program meets those basic needs while introducing them to the curriculum requirements of the current G.E.D. test using materials on a lower comprehension level. When your students master the materials in this curriculum, they will be prepared to take their places as competent employees and successful citizens. They will also have gained the confidence to pursue the higher level requirements of the G.E.D. test.

BASIC EMPLOYMENT AND DAILY LIVING SKILLS™

For Special Education Students

6 curriculums covering 80 subjects with 541 lessons
Objectives, Instructional Strategies, Assessment Tasks

Basic Skills

Basic skills are those skills that can be applied across a variety of curriculum areas. They serve as a foundation for competitive employment, sheltered employment, and independent living. Learning these skills empowers students to function with greater independence.

10 subjects and 90 lessons (BS) - \$75.00

Competitive Employment

Competitive employment prepares students for competitive, independent employment in the community setting. Students will be able to enter the job market, get a job and keep the job.

12 subjects and 132 lessons (CE) - \$85.00

Leisure Time

Leisure time skills enrich students' lives by increasing the students' options for personal pleasure and enjoyment. The focus of these lessons is to expose students to and make students aware of a wide range of leisure time activities that can be done throughout life.

6 subjects and 32 lessons – (LT) \$50.00

Sheltered Employment

Sheltered employment teaches job skills to students in need of individual or group supervision. These competencies will aid students in becoming active participants in our society. Students will become proficient in performing a variety of necessary jobs in workshop settings.

14 subjects and 81 lessons (SE) - \$100.00

Skills for Independence

Skills for independence are the competencies required to lead a semi-independent life. Students may always need assistance, but by developing abilities for daily living students will become a vital members of the community.

24 subjects and 141 lessons (SI) - \$165.00

Work Adjustment

Work adjustment teaches students how to: respond to authority and supervision; correctly interact with peers and co-workers; and have good work habits, behaviors and attitudes. These are the skills critical for getting and keeping a job.

14 subjects and 65 lessons (WA) - \$100.00

RATIONALE FOR THESE BOOKS

"Why do I need to read? I'm going to be a cook." "Why do I need to know math? I'm going to be a mechanic."
"Why do I need to write? I'm going to be a carpenter."

The reason for the Vocational Academic Curriculum is to have your students understand the need to know reading, writing, math and how these academic skills will be used in their future jobs.

This series of 70 books integrates academic skills with 14 vocational trades!

HOW THESE BOOKS ARE WRITTEN

Each vocational trade has its own vocabulary and skills. Each vocation also requires a specific knowledge of mathematics and language arts. These unique books combine math and language arts in vocational areas by using content specific examples and situations for each academic skill .

VOCATIONAL TRADES COVERED

This series of 70 books covers 14 different vocational trades. In each of these individual vocations there are practical applications of English and Grammar, Reading, Mathematics, and Applied Mathematics.

The Following Academic Skills Are Covered For Each of the Vocational Trades

MATHEMATICS

Addition Subtraction
Multiplication Division
Decimals

APPLIED MATHEMATICS I

Fractions Mixed Numbers
Percents Estimation
Decimals Problem Solving

APPLIED MATHEMATICS II

Measurement Tables, Charts & Graphs

LANGUAGE ARTS

PREPARING FOR SCHOOL

A Unique Pre-Kindergarten Curriculum

CD-ROMS and COMPANION BOOKS

THE Most Important Curriculum

Getting a Child Prepared For School and Life!

Let's Prepare for the Future

This curriculum teaches children to appreciate learning, make better decisions and become better citizens. There will be a lasting impact as children learn the skills necessary for success both at school and in the community. These materials provide a wide range of activities to help children get ready for school and life.

THIS CURRICULUM PROVIDES LESSONS AND ACTIVITIES THAT:

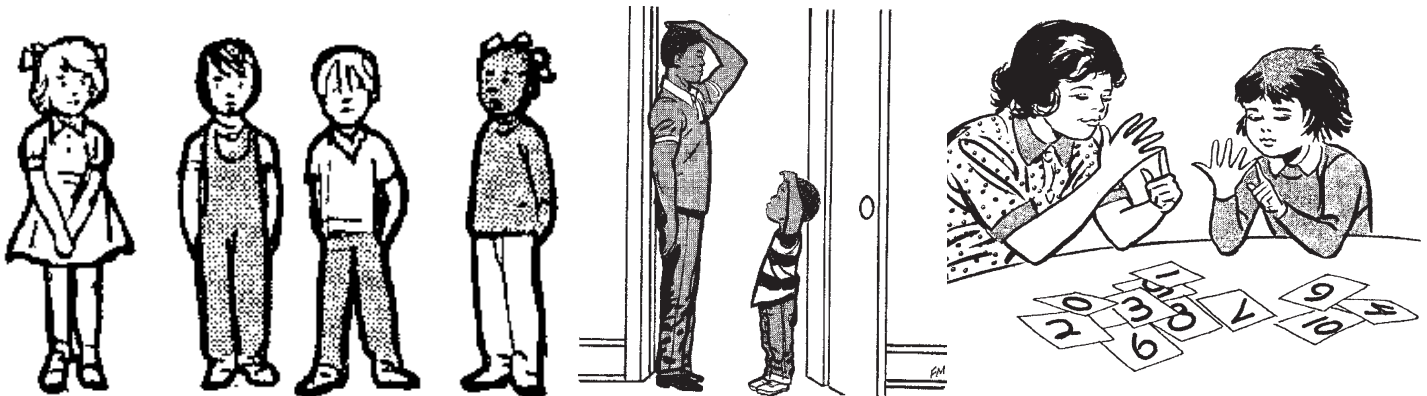

- Build on children's curiosity, abilities, and interests.
- Provide hands on learning with tangible objectives.
- Focus on positive learning experiences.
- Promote language development and reasoning.
- Provide for active learning so children interact with each other.
- Help the development of the learning potential and decrease the need for remediation.
- Build on what children already know and are able to do.
- Integrate and teach across all areas.
- Provide a wide range of information and literacy experiences.
- Engage the children in cooperative hands-on learning with day to day life experiences.
- Balance active and quiet activities along with individual and group activities.
- Are sensitive to cultural, language and learning differences among all children.

THIS CURRICULUM ENABLES CHILDREN TO:

- Experience the world around them.
- Expand their knowledge and skills.
- Develop their abilities to communicate.
- Increase their positive self-concept and self-esteem.
- Make better decisions.
- Become better citizens.
- Increase their positive interactions.
- Explore and try out new ideas/experiences.
- Think and reason.

MAKING IMPORTANT DECISIONS

Accountability

Character Education - Thinking Skills - Problem Solving

Students must know that the decisions they make affect them – their family – their job – their co-workers – their friends – and their community.

Individuals Are Responsible For Their Actions

This multimedia curriculum will help individuals make better decisions by thinking about the problem before acting, reacting, or not acting. This curriculum provides students opportunities to consider choices that support beneficial behavior and identify and practice actions that support those choices. This curriculum helps students:

- Learn that they are responsible for their actions.
- Examine personal risk-taking behaviors and choices of behavior.
- Develop thinking skills and behaviors to resist certain dangerous actions while developing thinking skills and attitudes that focus on acceptable behaviors.
- Develop the thinking skills and behaviors needed to practice and maintain appropriate behaviors.
- Develop and maintain positive feelings about themselves and others.
- Develop the decision making and communication skills they need that will benefit all concerned.

This curriculum is ideal for use in: HIV/AIDS Education, Drug and Alcohol Prevention, Bullying Prevention, Drop-Out Prevention, Spouse and/or Child Abuse, Probation, Prevention and Rehabilitation Programs

THIS CURRICULUM STRESSES ACCOUNTABILITY
